What is Catastrophe Coverage and why is it so important during Hurricane Season?

Did you know 8,500 vehicles were destroyed during Hurricane Ivan?

We've branded ourselves Saxon – Smart Insurance for a reason. You can choose what coverage you need based on your own circumstances. Living in the Cayman Islands we have constant exposure to storms during the hurricane season so choose catastrophe cover on your home policies or add it on to your third party auto policy. Often times when vehicle values are low comprehensive coverage isn't readily available in the market to cover your vehicle in the even of a storm but at Saxon you can include this optional cover just like you would fire, theft or collision.
